

Hydro One Telecom Can Help You Retain and Protect your Microsoft Office 365 Data

Microsoft provides a wide array of powerful services within MS Office 365 which enables your business to work anywhere, anytime, without the need to host your own email, files and content management infrastructure.

HOT is proud to offer the MS Office 365 Backup solution as part of its suite of Backup as a Service (BaaS) offerings. The MS Office 365 Backup solution eliminates the risk of losing access and control over your Office 365 data- including Exchange Online, SharePoint Online and OneDrive for business- so that your data is always available and protected.

Why Does it Matter?

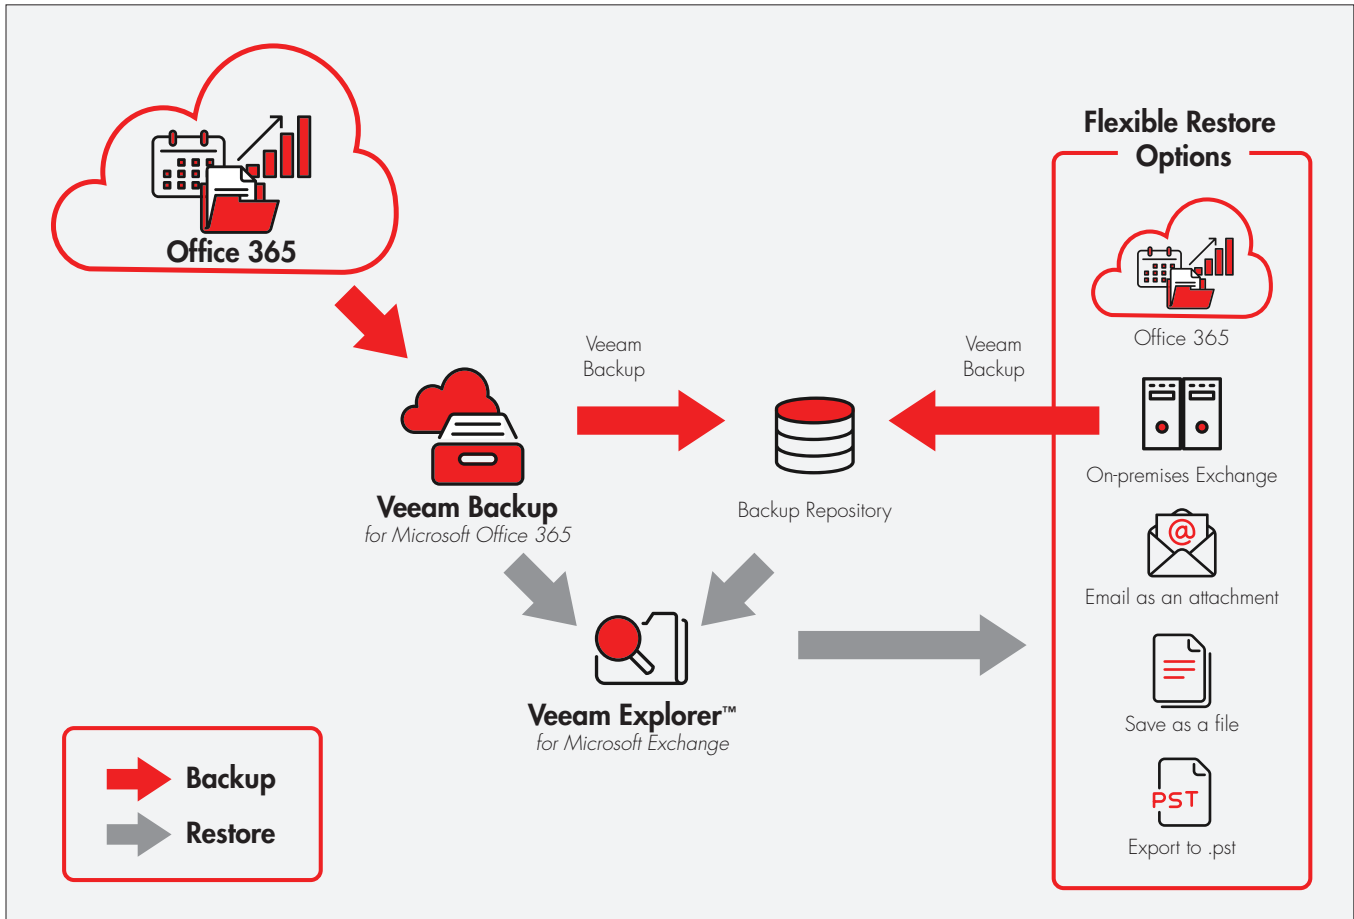

Even though Microsoft hosts the infrastructure, you are ultimately responsible for your data- and that includes maintaining a backup of your business-critical MS Office 365 data. Most companies don't realize this and don't realize how exposed they can be.

Microsoft Responsibility:	Your Responsibility:
<ul style="list-style-type: none"> • Global infrastructure 	<ul style="list-style-type: none"> • Recycle bin (limited, short-term data)
<ul style="list-style-type: none"> • Recycle bin (limited, short-term data) 	<ul style="list-style-type: none"> • Your MS Office 365 data
<ul style="list-style-type: none"> • MS Office 365 data replication 	<ul style="list-style-type: none"> • Full data retention (short & long term retention)
<ul style="list-style-type: none"> • Physical security, logical security, app-level 	<ul style="list-style-type: none"> • Security against accidental deletion, employee

To learn more about Backup as a Service – MS Office 365 Backup and other offerings, please contact us at HOTSales@HydroOne.com or (866) 345-6820 to speak with a Sales representative or visit us at www.HydroOneTelecom.com

How it Works

- **Backup:** Exchange, OneDrive and SharePoint- online and on-premises, using native MS Office 365 APIs
- **Retain:** your data with flexible retention policies of 1, 3, 7 years, and forever, which allows you to plan your backups in accordance with your needs
- **Store:** backups conveniently and securely in HOT's cloud. Your data remains encrypted and accessible only to you
- **Search and Restore:** quickly and at a granular level. Individual objects reside in a protected file format that is easily accessible to you using Veeam Explorer software for Exchange, Onedrive and SharePoint

Features of HOT's MS Office 365 Backup

Ensuring availability of email and content data requires a solution that can cover both MS Office 365 and any on-premise Exchange and SharePoint instances that you may have. HOT offers MS Office 365 Backup so that you can:

- Protect your MS Office 365 data from accidental deletion, security threats and retention policy gaps
- Quickly restore individual MS Office 365 items and files with easy to use self-service portals
- Meet legal and compliance requirements with flexible retention policies and easy restoration
